

10 September 2020

This document was updated on the 14 April 2021 to contain the additional discretions agreed by the Beauty Professional Apprenticeship Steering Group (BPASG) with the Institute for Apprenticeships and Technical Education (the Institute), Ofqual and end point assessment organisations (EPAOs) as detailed on the Institute's website - Beauty Therapist Standard, Beauty and Make-up Consultant, Nail Services Technician.

These changes are detailed in discretion 1 (scenario 1) on pages 5-28.

HBA D3 v5.2 Beauty apprenticeship trailblazer statement regarding temporary adaptations for the beauty apprenticeship suite of mandatory on programme qualifications (diplomas), flexibilities, and dispensations for the End Point Assessment (EPA) due to COVID-19.

Purpose

The coronavirus (COVID-19) pandemic has resulted in restrictions to beauty apprenticeship education and training during the spring and summer of 2020. Guidance has been provided by the Government, with varied opening dates for businesses. Some services and treatments were not permitted to open, and it is possible that the public health restrictions may continue to occur either locally or nationally during the rest of the year. We know that both employers and training providers wish to continue with delivery of apprenticeships, the mandatory on-programme diploma qualifications and EPA. In this paper we will set out the factors we are proposing to enable the mandatory on-programme diploma qualifications and EPA of beauty apprenticeships to continue.

Aim

This statement's aim is to provide clear direction, guidance, and support for employers, EPAOs, training providers and apprentices. It is provided in relation to temporary adaptations for the beauty apprenticeship suite of mandatory on-programme qualifications (diplomas), flexibilities and dispensations for the EPAs due to COVID-19.

The Impact of COVID-19

The COVID-19 pandemic has had a dramatic impact on the sector and will continue to have when we are able to return to work. New ways of working will be required. Maintaining professionalism, competency and standards is key to the sector retuning to a new normal and assuring public confidence.

Impact of proposed changes to competency levels

As detailed in our previous joint industry statement, supported by key industry organisations, it is important that any adaptations, flexibilities or dispensations to the mandatory on-programme qualifications or EPAs, maintain the rigour and validity required and do not devalue the apprenticeships, leading to confusion over levels of competence.

This statement is subject to review based on Government guidance.

We believe that the following principles should continue to be applied when considering any adaptations, flexibilities or discretions. They:

1. must ensure that apprentices are competent and safe to practice meeting health, safety and legal requirements
2. Must meet COVID-19 safe risk assessment guidance as detailed in the [Government guidelines](#)
3. must support the standards set by employers, standard setting authorities, and individual industries
4. will neither advantage nor disadvantage apprentices historically, now or in the future
5. must maintain the validity, reliability, and integrity of standards and qualifications
6. must cover all the knowledge, skills, behaviours, and competencies
7. must consider apprentices' attendance and duration of learning completed, addressing any gaps in learning (a typical apprentice will need the whole allocated apprenticeship timescale of 20% off-the-job training to cover the required knowledge, skills and behaviours and gain the relevant competence to meet 100% of the existing KSB statements).

All stakeholders have a duty of care to every apprentice and ultimately the client/customer. The achievement of a beauty apprenticeship standard is confirmation of competence that an apprentice is 100% job-ready to work in the sector, endorsed by the issued apprenticeship certificate.

Wherever possible, the full mandatory on-programme diploma qualification and EPA must be completed as detailed in the standard (qualification diploma and EPA plan). Adaptions, flexibilities and dispensations have been agreed if a treatment/service cannot be completed due to Government restrictions or the Government guidelines preclude the standard (full qualification and or EPA being completed).

Definitions

An adaption is a permitted change of regulated qualifications in line with the Extraordinary, Regulated Framework (ERF) and Extended Extraordinary Regulated Framework (EERF)

A flexibility is the ability to change or for something to be changed easily within the EPA according to the situation

A dispensation is special permission, to do something that is not usually allowed within the EPA

A discretion is a temporary applied additional special permission to further adapt the EPA

Beauty professional suite of standards

- Beauty Therapist (Level 2)
- Beauty and Make-up Consultant (Level 2)
- Nail Services Technician (Level 2) - no apprentices currently at Gateway - not in scope dispensation 1 (scenario 1)
- Advanced Beauty Therapist (Level 3) - no apprentices currently at Gateway - not in scope
- Wellbeing and Holistic Therapist (Level 3) - awaiting publication - not in scope

2020-2021 Mandatory regulated on-programme diploma qualification flexibilities and adaptations

Beauty Professional Diplomas Knowledge (Knowledge and Understanding):

The apprentice must demonstrate 100% achievement of the knowledge detailed within the beauty professional standards mandatory on-programme diploma qualifications required by each apprentice.

The recommended approach, including the knowledge statements usually assessed by externally set mandatory testing (closed book) or knowledge assignments, is as follows and should be conducted virtually and recorded with appropriate consent:

- Knowledge statements assessed by externally set mandatory question papers where it creates an unnecessary risk to invigilate under formal assessment conditions ('closed book'); the knowledge should be evidenced and referenced to other forms of knowledge evidence achieved to include:
 - evidence cross-referenced from another unit already achieved as a mandatory question under formal assessment conditions (closed book)
 - assignment/project evidence cross referenced to the knowledge statements
 - written questions
- Where possible knowledge should be inferred from practical observation and evidenced
- Where knowledge cannot be inferred, oral/questions and answers and professional discussion should be used to generate evidence against the remaining criteria
- Assessment of knowledge, oral questions and answers and professional discussion sessions must be carried out by an assessor who is occupationally competent and in a way that authenticates the responses are the apprentice's own
- All evidence gathered should be traceable, auditable, and authenticated.

Beauty Professional Diplomas Skills (Performance Criteria):

- The training provider and employer must confirm and agree the specific venue requirements that must be in place to include ensuring a realistic working environment. The real work environment must meet the following principles:
 - All practical skills observation assessments must be carried out under realistic commercial conditions, meeting the current close contact services [Government guidelines](#)
 - The range of services, professional products, tools, materials, and equipment must be current and available for use and adhere to current close contact services [Government guidelines](#)
 - All byelaws, legislation or local authority requirements including risk assessments that have been set down in relation to the type of work that is being carried out must be taken full account of
 - all relevant large items of equipment e.g. therapist's chair, treatment couches including relevant mitigations for close contact services (e.g. visor, guards and/or screen) and PPE must be provided as outlined in [Government guidelines](#)
 - All products, tools and equipment must be available, be in good working order and legally compliant.

This statement is subject to review based on Government guidance.

- There is no requirement to work on a set number of ‘clients’ or ‘customers’. The clients/customers can be from the apprentice’s workplace, educational or household bubble.
- Up to 20% additional discretionary time (in addition to the existing discretionary 10%) can be allowed for an apprentice to implement additional PPE, screens/guards and social distancing requirements following [Government and industry guidelines](#) and [FAQs](#).
- Where traditional, physical on-site practical skills observations are undertaken by the assessor:
 - Start times may be staggered for multiple practical skills observations
 - The number of apprentices completing practical skills observations may be reduced to reflect and meet social distancing guidelines as per [Government guidelines](#)
- Apprentices should be given the opportunity to be observed virtually for any practical skills observation assessment following external quality assurance guidelines:
 - A vocationally competent employer or a vocationally competent senior member of staff must be present during the practical skills observation for safety and to assist the assessor on areas of clarification or where the assessor needs to see a close-up image
 - Virtual observations can only be completed on a one-to-one basis
 - 100% of the practical skills observation assessment must be observed by the assessor, should be live-streamed, wherever possible and should be recorded with the relevant data authorities confirmed by all participants. However, where this is not possible, (remote geographical locations or insufficient live-streaming access) allowances should be made to accept recorded practical skills observation evidence for assessment. Oral questions can be asked by the assessor to confirm any points of clarification, evidenced and retained. Protocols must be created and implemented to ensure all evidence gathered is traceable, auditable, and authenticated.
- Practical skills observation assessments can be adapted to meet [Government guidelines](#), limiting close proximity timescales associated with providing treatments or services to increased numbers of ‘clients’ or ‘customers’. Examples to consider:
 - Evidence collection could be cross referenced from another unit already achieved to cover a range
 - Clustering the performance of multiple treatments and services on individual ‘clients’ or ‘customers’ to maximise the evidence opportunities for example:
 - **Beauty Therapy:** Apprentices are required to carry out the following for providing hand and nail treatments: have used all the consultation techniques; have dealt with at least one of the necessary actions; have completed all types of hand and nail treatments; have applied all types of nail finishes including dark, French, buffed and gel; have provided all types of treatment advice. An apprentice could cluster the types of hand and nail treatments to maximise the observation opportunity on one client; the apprentice could be observed performing hand exfoliator, mask, mitts and dark enamel finish from the range on one hand and the paraffin wax, French enamel finish from the range on the other.

The use of artificial mannequins, nail or other trainers is not a permitted simulation for practical skills observation assessments.

2020-2021 End Point Assessment (EPA) flexibilities, dispensations and discretions

The following THREE flexibilities, dispensations and discretions have been developed to consider the impact of COVID 19 Government restrictions, guidelines and potential service/treatment restrictions or local lockdowns for beauty professional EPAs:

Discretion 1 (scenario 1) available for apprentices who have reached the EPA gateway having completed the mandatory on programme qualification affected by:

- Government or local guidelines that state personal services /close contact services are not permitted therefore no practical/skills training or EPA can be completed.
- COVID 19 guidelines/restrictions for personal services/close contact services apply to maintain social distancing and reduction of transmission of the virus affecting full operational commercial activity of the employer.

- **ST0630-Beauty Therapist**
- **ST0636-Beauty and Make Up Consultant**
- **ST0635-Nail Service Technician** - *This standard is not in scope for dispensation 1 (scenario 1) at the time of writing. Guidance has been included below which would be applicable if it is brought into scope by the Institute at some point in the future.*

EPA with discretion¹

- Apprentices can only be allocated a maximum of a pass grade if this new EPA discretion is applied. (The distinction grade cannot be assessed through this approach, as the on-programme qualification used as an evidence base is assessed at pass/fail)
- Re-sits and re-takes are not offered to apprentices wishing to move from pass to a higher grade. (In line with existing Institute policy)

Parameters for interpreting this discretion:

A. Parameters for Eligibility:

It is anticipated that most apprentices will still access the practical aspects of their EPA in line with the assessment plan, or via the previously existing COVID-19 flexibilities and dispensations (as per Autumn 2020 discretion 2/ scenario 2 and 3).

This additional discretion option has been provided for circumstances where that is not possible, or in exceptional circumstances where it would not be appropriate to use the previously existing COVID-19 flexibilities and dispensations.

¹ Institute for Apprenticeships and Technical Education (IfATE) [announced the new Covid-19 discretion](#) on the 17 of March 2021

The new discretions were published on the [IfATE website on the hair professional standards link](#)

This statement is subject to review based on Government guidance.

The high-level principles for eligibility, for apprentices who will have already met the existing gateway requirements, are set out below:

- Where close contact/personal services are not available (due to national or regional lockdowns, other restrictions, or Government COVID-19 guidance) and the apprentice does not wish to delay their EPA
- Where it is not safe for the apprentice to undertake close contact work for personal medical reasons (e.g. shielding) or similar (e.g. in line with PHE guidance)
- Difficulties in accessing appropriate venues (e.g. Feasibility issues due to commercial difficulties)
- Where employment situation of the apprentice has changed, or is changing in a way which necessitates the use of this discretion

The above reasons are not exhaustive - they set out the high-level principles which will be implemented by EPAOs, to assist in aligning their approaches to this discretion.

EPAOs will consider any other request on its merits, and the key test is the degree to which it would or would not be possible for the EPA to be delivered in line with the assessment plan, or via the previously existing Covid-19 flexibilities and dispensations (as per Autumn 2020 discretion/scenario 2 and 3).

B. Parameters for EPA discretion delivery:

The discretionary assessment method is a professional discussion underpinned by package of evidence:

1. The apprentice/provider must produce a package of information that shows evidence from the summative assessment. This will include a mapping document, utilising evidence provided from the apprentices on programme learning, which is mapped to the knowledge skills and behaviours detailed on the EPA. As a minimum this should include:
 - A consultation record card/sheet if available
 - Observation records signed by the apprentice and the on-programme assessor
 - Any photographic or digital evidence supporting the apprentice's level of attainment if available
 - Where this discretion is used for a resit/retake of a failed assessment, the evidence package must include some evidence of further guided learning since the previous assessment was taken (e.g. signed statement from training provider).
2. A joint statement of the apprentice's competence from the employer and on-programme assessor. The accountability statement of the apprentice's competence to include:
 - a. technical skills
 - b. client/customer care principles
 - c. behaviours

(Employer in this context can be an occupationally competent senior member of staff with direct experience of the apprentice's work).

Professional discussion is used to confirm the apprentice's skills, knowledge and behaviours against the existing pass grade descriptors for the EPA.

EPAOs will be coordinating their approach to grading collaboratively to ensure that grading is approached consistently.

Evidence 1 and 2 should be provided to the EPAOs in advance of the professional discussion to provide sufficient time for the assessor to review, as detailed in the individual EPAO's guidance.

The expectation is that the training provider/employer will review the evidence package prior to submission to ensure that it includes sufficient evidence to support the professional discussion, in line with mapping documentations (provided by EPAOs).

The timing for professional discussion would be up to a maximum of 1 hour on a one-to-one basis with one apprentice to one assessor.

Professional discussions can be conducted remotely or face-to-face.

End Point Assessment guidance to support preparation for assessment using the discretion.

EPAOs will administer all end-point assessments and make all grading decisions in accordance with Ofqual issued parameters. This information is to assist interested stakeholders to prepare for assessment when using the discretion. It gives examples of the types of evidence and areas of questioning which may be explored during the professional discussion, this is not exhaustive. The information produced here is underpinned by the occupational standard and end-point assessment plan which must be referred to. Definitive guidance can be sought from your chosen EPAO.

ST0630 Beauty Therapist

Specific Beauty Therapist Dispensations detailed below:

Practical skills/service	A Beauty Therapist is able to:	Range of techniques, resources, products, tools and equipment required	Typical repurposed evidence pack created from summative skills performance observations of the regulated mandatory on programme qualification, supported by Professional Discussion The type of topics the apprentice could be asked to discuss with the assessor:
Provide waxing services	Consult, plan, prepare and perform waxing services to remove unwanted hair from two areas on clients to include: <ul style="list-style-type: none"> • ½ leg or full including the knee • Another area from: Underarm face Bikini line 	a. From the ranges below the apprentices must show they have: <ul style="list-style-type: none"> • used all consultation techniques <ul style="list-style-type: none"> ○ Questioning ○ Listening ○ Visual ○ Manual ○ Written • Wax two areas from: <ul style="list-style-type: none"> ○ Legs 	Treatment record and assessment observation evidence validated by the apprentice and assessor of waxing services to remove unwanted hair from two areas on clients to include: <ul style="list-style-type: none"> • ½ leg or full including the knee • Another area from: Underarm Face Bikini line

		<ul style="list-style-type: none"> ○ Underarm ○ Face ○ Bikini line ● Performed waxing services using all working techniques: ○ Stretching and manipulating the skin during application and removal ○ Appropriate speed of product removal ○ Direction and angle of removal ○ Ongoing product temperature checks ● Provided advice and recommendations throughout the treatment 	<ol style="list-style-type: none"> 1. The services that have been completed (the evidence provided) 2. --	---	--	---

Discretion 2 (previously scenario 3): Government state that close contact services on the face are permitted in line with government guidelines (mitigations)

Beauty professional suites of standards flexibilities:

- Up to 20% additional discretionary time can be allowed for an apprentice to implement additional PPE and social distancing requirements following government and industry guidelines and FAQs.
- Knowledge and understanding: The apprentice must demonstrate 100% achievement of the knowledge detailed within the EPA plan. The following flexibility can be applied:
 - Knowledge statements usually assessed by externally set mandatory testing (closed book), apprentices should be given the opportunity to complete the written test via remote invigilation following external quality assurance (Ofqual) guidelines
- Apprentices can be observed virtually for the full duration of the practical EPA following external quality assurance (Ofqual) guidelines:
 - A vocationally competent employer or a vocationally competent senior member of staff must be present during the observation for safety and to assist the EPA Assessor on areas of clarification or where the EPA assessor need to see a close-up image
 - Virtual observations can only be completed on a one-to-one basis
 - The EPA must be live-streamed and should be recorded with the relevant data authorities
 - 100% of the EPA must be observed by the EPA assessor, recording can be used only if any internet connection is temporarily lost during the EPA. The employer and the training provider must confirm there is a sufficient internet connection in the venue being used for the full duration of the EPA.
- There is no requirement to work on a set number of ‘clients/customers’
- Start times may be staggered with agreement from the EPAO
- The number of apprentices completing the EPA may be reduced

To achieve an apprenticeship the full range of knowledge, skills and behaviours must be completed as detailed in the apprenticeship standard. The practical observation must be carried out under realistic commercial conditions in a location as detailed in the EPA plan.

This statement is subject to review based on Government guidance.

Beauty therapy dispensations are detailed below:

- Up to 20% additional discretionary time can be allowed
- Clients must be kept to a minimum; it is recommended that **one** client is used for the EPA where possible to maintain social distancing in the workplace
- The total EPA time can be reduced **2 hours and 50 mins** by combining treatments on one client plus 20% discretionary time

Observation 1: Will require the apprentice to:

- Wax two areas to remove hair from the bikini and underarm (30 minutes)
- Provide one hand and nail treatment, with no heat, reducing the time to 45 minutes
- Provide one foot treatment: the opposite nail finish must be used on the foot to the hand treatment, a dark polish finish or a French polish finish reducing the time to 45 minutes
- Provide one back, neck and shoulder massage reduced to 20 minutes
- Provide a pick-me-up facial (30 mins) no heat or steam, client to arrive with no eye or lip make-up
- One eyebrow tint/brow tint instead of eyelash tint (15 minutes)
- Make-up, eyebrow artistry and lash application (30 minutes)

The skills, knowledge and behaviours set out below must be assessed through **practical observation on a live model/client and oral questioning** by the EPA assessor:

Practical skills/service	A Beauty Therapist is able to:	A Beauty Therapist Knows and Understands:	Range of techniques, resources, products, tools and equipment required
<p>Provide waxing services</p>	<p>Consult, plan, prepare and perform waxing services to remove unwanted hair from two areas on clients to include:</p> <ul style="list-style-type: none"> • 1/2 leg including the knee • Another area from: legs Underarm face Bikini line 	<ul style="list-style-type: none"> • Waxing services and how these are carried out • Types of products and equipment 	<p>b. From the ranges below the apprentices must show they have:</p> <ul style="list-style-type: none"> • used all consultation techniques <ul style="list-style-type: none"> ○ Questioning ○ Listening ○ Visual ○ Manual ○ Written • Wax two areas from: <ul style="list-style-type: none"> ○ Legs ○ Underarm ○ Face

			<ul style="list-style-type: none"> ○ Bikini line ● Performed waxing services using all working techniques: ○ Stretching and manipulating the skin during application and removal ○ Appropriate speed of product removal ○ Direction and angle of removal ○ Ongoing product temperature checks ● Provided advice and recommendations throughout the treatment
<p>Provide hand, nail and foot treatments</p>	<p>Consult, plan, prepare and perform hand, foot and nail treatments on clients (<i>the opposite polish finish must be used on the hand to the foot treatment</i>) to include:</p> <ul style="list-style-type: none"> ● One hand and nail treatment to include either a: <ul style="list-style-type: none"> ○ Dark polish finish or ○ French polish finish ● One foot treatment to include either a: <ul style="list-style-type: none"> ○ Dark polish finish or ○ French polish finish ● Either a: <ul style="list-style-type: none"> ○ Foot and/or nail treatment ○ Hand and/or nail treatment 	<ul style="list-style-type: none"> ● The techniques, tools and equipment used to complete hand, foot and nail treatments 	<p>b. From the range, apprentices must show that they have:</p> <ul style="list-style-type: none"> ● Used all the consultation techniques <ul style="list-style-type: none"> ○ Questioning ○ Listening ○ Visual ○ Manual ○ Written ● Used a minimum of one hand and nail treatment <ul style="list-style-type: none"> ○ Paraffin wax ○ Hand masks ○ Thermal mitts ○ Exfoliators ● Used a minimum of one foot treatment <ul style="list-style-type: none"> ○ Paraffin wax ○ Foot masks ○ Thermal boots ○ Exfoliators

			<ul style="list-style-type: none"> ○ Provided advice and recommendations throughout the treatment

---	---	--	---

Discretion 3 (previously scenario 2): Government guidelines state that close contact services on the face are not permitted:

- No practical/skills training or assessment can be completed for services on the face in the high-risk zone and no EPA can be completed (reschedule as soon as possible) for:
 - Beauty Therapy - facial treatments, eye and brow artistry treatments, make-up
 - Beauty and Make-up Consultancy - Instruct the use and application of skin care products and make-up

It is highly recommended that employers and training providers concentrate on training and assessment for treatments and services on the face when treatments and services are permitted to open in case of further restrictions or local lockdowns.

Beauty Professional (all level 2 standards) EPA flexibilities - Knowledge

- Online written test as detailed in the EPA plan: apprentices should be given the opportunity to complete the written test via remote invigilation following external quality assurance guidelines

Beauty Professional (all level 2 standards) EPA - Skills

- The training provider and employer must confirm and agree the specific venue requirements that must be in place to include ensuring a realistic working environment to meet the EPA requirements as outlined in the EPA:
 - The real work environment must meet the following principles:
 - All EPA skills must be carried out under realistic commercial conditions, meeting the current close contact services [Government guidelines](#)
 - The range of services, professional products, tools, materials, and equipment must be current and available for use and adhere to current close contact services [Government guidelines](#)
 - All byelaws, legislation or local authority requirements including risk assessments that have been set down in relation to the type of work that is being carried out must be taken full account of
 - all relevant large items of equipment e.g. therapist's chair, treatment couches including relevant mitigations for close contact services (e.g. visor, guards and/or screen) and PPE must be provided as outlined in [Government guidelines](#)
 - All products, tools and equipment must be available, be in good working order and legally compliant.
- up to 20% additional discretionary time can be allowed for an apprentice to implement additional PPE and social distancing requirements following [Government and industry guidelines](#) and [FAQs](#).
- Apprentices can be observed virtually for the full duration of the EPA following external quality assurance guidelines:
 - A vocationally competent employer, a senior vocationally competent member of staff or assessor must be present during the EPA for safety and to assist the independent end point assessor on areas of clarification or where the independent end point assessor needs to see a close-up image
 - Virtual observations can only be completed on a one-to-one basis

This statement is subject to review based on Government guidance.

- 100% of the EPA must be observed by the independent end point assessor, should be live-streamed wherever possible and should be recorded with the relevant data authorities confirmed by all participants. Recording can be used only if any internet connection is temporarily lost during the EPA. The employer and the training provider must confirm there is a sufficient internet connection in the venue being used for the full duration of the EPA
- Oral questions can be asked by the independent end point assessor to confirm any points of clarification, evidenced, and retained. Protocols must be created and implemented to ensure all evidence gathered is traceable, auditable, and authenticated
- There is no requirement to work on a set number of “clients or customers”. The clients can be from the apprentice’s workplace, educational or household bubble.
- Where traditional, physical practical EPA are undertaken by the independent end point assessor:
 - Start times may be staggered for multiple practical skills observations
 - The number of apprentices completing practical skills observations may be reduced to reflect and meet social distancing guidelines as per Government guidelines

The use of artificial mannequins, nail or other trainers is not a permitted simulation for the EPA.

This statement is subject to review based on Government guidance.

Specific Beauty Therapy standard dispensations are detailed below:

- Up to 20% additional discretionary time can be allowed
- Clients must be kept to a minimum; it is recommended that **one** client is used for the EPA where possible to maintain social distancing in the workplace
- The total EPA time can be reduced **2 hours and 20 mins** by combining treatments on one client plus 20% discretionary time:

Observation 1: Will require the apprentice to:

- Wax **two** areas to remove hair from the bikini and underarm (30 minutes)
- Provide **one** hand and nail treatment, with no heat, reducing the time to 45 minutes
- Provide **one** foot treatment; the opposite nail finish must be used on the foot to the hand treatment, a dark polish finish or a French polish finish reducing the time to 45 minutes
- Provide back massage reduced to 20 minutes

The skills, knowledge and behaviours set out below must be assessed through **practical observation on a live model/client and oral questioning** by the EPA assessor:

Practical skills/service	A beauty therapist is able to:	A beauty therapist knows and understands:	Range of techniques, resources, products, tools and equipment required
<p>Provide waxing services</p>	<p>Consult, plan, prepare and perform waxing services to remove unwanted hair from two areas on clients to include:</p> <ul style="list-style-type: none"> • 1/2 leg including the knee • Another area from: <ul style="list-style-type: none"> ○ Underarm ○ Bikini line 	<ul style="list-style-type: none"> • Waxing services and how these are carried out • Types of products and equipment 	<p>a. Beauty Therapy standard dispensation

The skills, knowledge and behaviours for facial treatments, eyelash and eyebrow treatments and make-up application below cannot be completed as detailed in the [Government guidelines](#). Due to this suspension in treatments, the following requirements must be completed:

- The apprentice must be in Gateway, the on-programme beauty therapy qualification must have been achieved before the closure of the close contact services
- The on-programme qualification evidence can be repurposed for the restricted treatments to form the basis of a set of oral questions
- Oral questioning should be based on a completed summative assessment used within the beauty therapy qualification
- Oral questions should be asked on the following summative assessments:
 - One facial treatment
 - Three eye and brow artistry treatments
 - One make-up look
- The apprentice must produce a package of information that shows evidence of the summative assessment. This should include:
 - A consultation record card/sheet
 - Observation records signed by the apprentice and the assessor
 - Any photographic or digital evidence if available

The skills, knowledge and behaviours set out below must be assessed through practical observation on a live model/customer and oral questioning by the EPA assessor:

Practical skills/service	A beauty therapist is able to:	A beauty therapist knows and understands:	Range of techniques, resources, products, tools and equipment required	Oral questioning <i>The knowledge and behaviours referenced below must be sampled by the EPA Assessor</i>
Provide facial treatments	Consult, plan, prepare and perform facial skin care treatments, use facial products and equipment , and improve and maintain skin condition on clients to include: <ul style="list-style-type: none"> • One facial treatment to include: 	The techniques, tools and equipment used for facial treatments	a.
